Dia =45mm  
Wid = 13mm

Max rope dia

10mm

Break load

770kg

SWL

385kg

Length

90mm

A strong lightweight block suitable for use on dinghies, day boats and light cruising yachts. Ideal for Mainsheets, Vang Tackles, lead blocks or wherever a powerful and compact purchase tackle is required. Each plain bearing block has a precision moulded Acetal Sheave running a large diameter brass centre bearing ensuring free running under the highest of loads.

This is a comprehensive range of multiple sheave options together with fiddles and camcleat blocks which allow for powerful lightweight tackles to be achieved.

Has a plain attachment eye.
